

Introducing the wild life that lives in Owlthorpe Heritage & Nature Trail and who call it their home.

The Birds: <https://www.ecological-owlthorpe.org/birds.html>

The Bees: <https://www.ecological-owlthorpe.org/insects.htm>

The Butterflies: <https://www.ecological-owlthorpe.org/butterflies.htm>

The Mammals: <https://www.ecological-owlthorpe.org/mammals.htm>

They have all seen the devastation of their neighbour's habitat on plot (E). Many of these effected species have joined them on plot (F) but because of the destruction of [Invertebrates](#) The food chain is reduced.

Taking action,

As we say on our website, public opinion is a very strong tool. It is by working together that we can change hearts and minds and curb the over-development of vital green spaces, especially when mature and valuable trees are threatened with the axe. Numbers are important: politicians take notice when they feel a sufficient threat to their re-election.
