to me

Hi Michael

Thank you for reaching out on your post on our group, it is heartening to know that not all east members are opposed to working alongside us. I am not quite sure what is happening but I personally have always found East members very warm and welcoming when I have attended meetings etc, and hopefully I have treated them in the same manner. This is why I found these messages so confusing.

I had every intention of, in the near future, working very closely with the east branch, helping each other out as and when needed, and having periodical meetings together to share ideas and discuss progress etc. We need to show the Sheffield public that although we cover 2 separate areas we are working alongside as 1 united REFORM Sheffield. After all, we all working towards the same goal.

As far as I am aware, I haven't shared any photos other than those promoting the Easts efforts, on my group, but east members have always and will always be welcome on my group, and I have no intention of censoring what they want to share with us.

I find this whole situation absolutely ludicrous and unprofessional. Hopefully Susan will have had chance to speak to you by now, and I am happy to communicate with you however suits you. Hopefully with a joint approach we can resolve this sorry situation.

Thanks again

kind regards

Vicky L Horton
Chair REFORM Sheffield West
