

Trees On Fire.

As we see on the TV, wild fires are increasing year on year. Millions of trees are destroyed contributing to climate change. It is not only the loss of trees but many properties too are destroyed.

As a consequence, this year, holidays have been ruined with many holiday makers having to be rescued from various locations.

Please spare a thought for the many fire fighters who have lost their lives fighting wild fires this year.

We need to support all communities wishing to save trees, hedgerows and open spaces.

A big thank you to the 930 + who in such a short period of time, have signed our petition to Sheffield City Council: <https://chng.it/6vXHqcGG4S> please continue to support our campaign and request friends and family sign our petition.
